

Part Time practice pharmacist

Pay Band 7 - 8a pro rata

Are you a self motivated, dynamic pharmacist keen to be an integral part of our team?

We offer a rare opportunity to be a central part of our dispensing practice following the retirement of our current pharmacist.

We are a training practice of 3 GP Partners and a salaried Doctor located in beautiful countryside across 3 sites in Mid Devon just outside of Exeter.

As you will work for one practice, this will allow you the opportunity to build continuity with your patients and Colleagues.

The successful candidate will have excellent interpersonal and organisational skills. You will receive clinical supervision and will be supported by in-house training and mentoring. The expectation is to eventually be able to manage common/minor/self-limiting ailments.

The role will involve working with GPs and the dispensary team to support and improve patient care. This role includes duties such as managing the practice dispensary, performing medication reviews, managing medication requests, medicines reconciliation of hospital discharges, and contributing to long term conditions monitoring.

Ideally we are looking to recruit an individual who has experience working within a Primary Care setting and hold an independent prescribing qualification however, for the right candidate we would also support the development of someone who wishes to work towards this.

The position is for 60% FTE and the salary is competitive depending on experience. We are happy to be flexible with hours and can offer hours to fit in with school hours if required.

If you think this is the role is for you then we look forward to hearing from you. Informal visits and enquiries are encouraged. Why not visit our website at:
